# Integrated Payments

Connecting your till to your terminal

Integrated payments – connecting your EPOS till to your card terminal – enable your business to process payments faster and increase your profits.

There are many benefits to an integrated solution for almost all business types, most importantly, the removal of human error, giving you accurate reporting from all tills and terminals.

Press play to learn more about Integrated Payments

He's happy because his payment device now talks directly with his EPOS till

SHARP

At Swipen, we offer Integrated Payments free of charge and you can use our Pay at Table or Pay at Counter software, or both if it suits your business:

Pay at Table

A software designed with restaurants in mind:

- Split the bill at the table
- Automatic table closing
- Integrated gratuity & reporting
- Turn tables faster
- More efficient payment

Pay at Counter

Suitable for most businesses, offering:

- Faster payments
- Shorter queues
- Better conversion
- Greater profits
- COVID secure
